### PROFESSIONAL SUMMARY

Results-driven Java Backend Developer with a strong foundation in Java programming. Completed diverse backend Java projects, demonstrating expertise in building robust applications. Proficient in object-oriented programming, database management, and RESTful API development. Continuous learning in a dynamic software development environment.

### EDUCATION

Java Backend Developer(Full Time)  
Masai School, Bengaluru  
Jan 2023 - Sep 2023

Bachelor of Technology (Civil)  
Galgotias College Of Eng And Tech, GreaterNoida  
Jun 2015 - Jul 2019

Higher Secondary Education  
Army Public School, Agra  
Jun 2012 - Apr 2013

### CERTIFICATES

- Basic Java Hackerrank 
- Zoom Marathon Challenge

### SOFT SKILLS

Problem Solving || Team Work || Adaptability

### TECHNICAL SKILLS

Core Java || Spring Framework || Hibernate ||  
RESTful APIs || SQL || Maven || Git Unit Testing ||  
HTML || CSS || Java Script || GitHub

### PROJECTS

#### Travel Manager

Github 

##### Description

Developed a backend system for a travel booking platform that facilitated the management of travel tickets, cities, and locations.

##### Features

- ✓ User authentication.
- ✓ Admin dashboard for customer and booking statistics.
- ✓ Travel agent functionality for tour management (addition, update, deletion).
- ✓ Traveler features for tour booking, wallet balance, and transaction tracking.

##### Area of responsibilities

- Designed and implemented the entire backend system for the travel management platform.
- Incorporated the necessary features for Travelers to book tours, check wallet balance, and view transaction history.
- Developed the admin dashboard to display customer and booking statistics for the administrator.

##### Tech Stack:

- ✓ Core Java

**Solo Project completed in a duration of 5 days.**

#### TravelWiz

Github 

##### Description

Travelwiz is a travel booking platform using HTML, CSS, and JavaScript. It features user authentication, an admin dashboard, and traveler features like tour booking. The platform incorporates smooth HTTP requests and has a responsive design.

##### Features

- ✓ HTTP Request GET POST PUT PATCH DELETE.
- ✓ Sorting, Filtering, and Pagination on the website.
- ✓ Text Search and Responsive.

##### Area of responsibilities

Designed and implemented the entire front-end portion.

Created user authentic module to ensure secure access and authorization.

Developed the admin dashboard to display customer and booking statistics for the administrator.

##### Tech Stack:

- ✓ HTML || CSS || JavaScript

**Collaborative project involving 3 members, completed within 5 days.**
